*Calculation based on Systemed Book of Business for the time period 4/13/08 through 7/11/08 and rounded to two decimal places.

** For these medications that are typically taken chronically, targeted member communication mailings will be sent

Also, in our ongoing effort to assist you in managing your prescription benefit to the lowest total cost, we wanted to highlight recently approved and upcoming generics. As you may be aware, nearly \$45 billion in brand name drugs are expected to lose patent protection between 2007-2010. We want to ensure that your plan is taking full advantage of opportunities to lower or contain drug spend by increasing the usage of generic drugs. Please find additional information below.

Recently Approved Generics:

Brand Name	Generic name	Use(s)
